## What are Cookies?

A cookie is a text file with a small piece of information used to identify your computer as you use your computer network. The data stored within the cookie is created by the server when you connect, and the data is given a unique ID, unique to you and your computer. So, when you visit another website, the organisation that requested the initial cookie can track the website you have visited.

The cookies are only generated because you have not opt-out receiving cookies and completed a form on 2 of Us Studio requesting further information. However, if you do opt-out from receiving the cooking, note that some website functionality may cease working. The cookies will not store any personally identifiable information.

## Why do we use Cookie?

There are different types of cookies, and the aim of usage is to improve your browser experience. 2 of Us Studio uses third-party cookies from a domain different from the domain you accessed. This is used for advertising and marketing purposes.

## Changing your Cookie Setting

When you first see our site, a pop-up menu will appear on your computer. Click on the manage settings option and select which option best suits you from the list.

Both the European Union General Data Protection Regulation (GDPR) and the California Consumer Privacy (CCPR) Act of 20018 regulate how individuals can access the personal

information an organisation has about them and restrict how the organisation can use the personal data.

We comply with both of these regulations and for more information on both regulations see:
